

# Redux

- Predictable
- consistent behavior
- portable with javascript
- easy to test
- developers experience - live coding, time-travel debugging

## RTK (redux-tool-kit)

- wraps redux-core and exposes only useful APIs.
- simplifies Redux use
- implements best practices
- prevents common mistakes

## Redux-core

- an npm package (<https://www.npmjs.com/package/redux>)
- can be used with any module bundler
- can be consumed in node-apps
- precompile UMD (<https://npmcdn.com/redux@4.1.1/dist/redux.js>)
